ORDER

Adopted: May 19, 2015
Released: May 19, 2015

By the Chief, Enforcement Bureau:

1. The Enforcement Bureau (Bureau) of the Federal Communications Commission has entered into a Consent Decree to resolve its investigation into the circumstances surrounding how iHeartCommunications, Inc. (iHeart) transmitted Emergency Alert System (EAS) tones during the October 24, 2014 episode of The Bobby Bones Show, in the absence of an actual emergency or authorized test of the EAS.

2. The EAS is the national public warning system that requires broadcasters, cable television operators, wireline video service providers, satellite digital audio radio service providers, and direct broadcast satellite providers to supply the communications capability to the President of the United States to address the American public during a national emergency. Federal, state, and local authorities may also use the EAS to deliver emergency information, such as AMBER alerts and weather information targeted to specific areas. To preserve the unique purpose of the EAS tones, the Commission enforces laws prohibiting the use of the distinctive alert tones, or simulations of them, except in actual emergencies or authorized tests of the EAS. The sounds made by EAS tones are well-known warning signals to the public. However, unauthorized use of actual or simulated EAS tones risks desensitizing the public to the tones’ association with life-saving information, and such “Cry Wolf” mimicking of EAS tones present a real threat to public safety.

3. iHeart owns and operates 859 radio stations in more than 150 markets in the United States. iHeart also owns Premiere Networks, a distributor of syndicated radio programming, including The Bobby Bones Show, which is carried by 82 country music radio stations nationwide. During the October 24, 2014 episode of The Bobby Bones Show, iHeart inserted into the program an audio clip containing EAS tones, including Emergency Alert Notification (EAN) codes that aired during the first nationwide test of the EAS on November 9, 2011. The transmission of those EAN codes, in turn, engaged the EAS equipment of certain other EAS participants, ultimately causing a multi-state activation of the EAS. As a result, iHeart transmitted or caused the transmission of EAS tones in violation of statutory and regulatory prohibitions against such transmissions in the absence of an emergency or test of the system. To settle this matter, iHeart admits that it misused the EAS tones, will implement a compliance plan, and will pay a $1,000,000 civil penalty.

4. After reviewing the terms of the Consent Decree and evaluating the facts before us, we find that the public interest would be served by adopting the Consent Decree and terminating the referenced investigation into iHeart’s misuse of EAS tones during the October 24, 2014 episode of The
Bobby Bones Show, in violation of Section 325(a) of the Communications Act, as amended (Act)\(^1\), and Section 11.45 of the Commission’s rules (Rules).\(^2\)

5. In the absence of material new evidence relating to this matter, we conclude that our investigation raises no substantial or material questions of fact as to whether iHeart possesses the basic qualifications, including those related to character, to hold or obtain any Commission license or authorization.

6. Accordingly, **IT IS ORDERED** that, pursuant to Section 4(i) of the Act,\(^3\) and the authority delegated by Sections 0.111 and 0.311 of the Rules,\(^4\) the attached Consent Decree **IS ADOPTED** and its terms incorporated by reference.

7. **IT IS FURTHER ORDERED** that the above-captioned matter **IS TERMINATED**.

8. **IT IS FURTHER ORDERED** that any third-party complaints and allegations regarding iHeart’s October 24, 2014 retransmission of the November 9, 2011 Emergency Alert Notification and EAS tones that are currently pending before the Bureau **ARE DISMISSED**.

9. **IT IS FURTHER ORDERED** that a copy of this Order and Consent Decree shall be sent by first class mail and certified mail, return receipt requested, to Robert H. Walls, Jr., Executive Vice President, General Counsel and Secretary, iHeartCommunications, Inc., 200 East Basse Road, San Antonio, TX 78209 and iHeart’s lawyers, Richard J. Bodorff, Esq., and Ari Meltzer, Esq., Wiley Rein LLP, 1776 K Street NW, Washington, DC 20006.

II. BACKGROUND

3. Pursuant to Section 325(a) of the Act, no person within the jurisdiction of the United
States shall knowingly utter or transmit any false signals of distress. Additionally, Section 11.45 of the
Rules prohibits the transmission of false or deceptive “EAS codes or Attention Signal[s], or a recording or
simulation thereof, in any circumstance other than in an actual National, State or Local Area emergency
or authorized test of the EAS.”

4. The purpose of the EAS is to provide timely and accurate alerts and warnings so that
members of the public may act quickly to protect themselves and their families. Emergency alerts

4 See 47 C.F.R. § 11.1. The Commission was established for purposes of, among other things, the national defense
and the promotion of safety of life and property through the regulation of wire and radio communications networks.
See Section 1 of the Communications Act of 1934 (as amended), 47 U.S.C. § 151; see also Review of the Emergency
Alert System; Independent Spanish Broadcasters Association, the Office of Communication of the United Church of
containing an EAN Event code are designed to be automatically received and retransmitted by EAS Participants, and transmission of an EAN Event code will automatically interrupt programming to enable the President of the United States to alert the public of a national emergency. On November 9, 2011, the FCC and Federal Emergency Management Agency (FEMA) conducted the first nationwide test of the EAS. This test emergency alert contained an EAN Event code.

5. iHeart, formerly Clear Channel Communications, Inc., is the parent company of Premiere Networks. Premiere Networks distributes the syndicated radio program *The Bobby Bones Show*. At approximately 8:28 a.m. on October 24, 2014, host Bobby Bones aired commentary on the interruption of the broadcast of a critical moment of Game 2 of the 2014 World Series by a Washington, DC, cable system’s required monthly EAS test. The program segment included an audio recording, not of the EAS test under discussion, but the EAN Event code that had been used in the November 9, 2011, nationwide test of the EAS. In addition to causing the transmission of a false emergency alert over the stations broadcasting *The Bobby Bones Show*, the transmission of the EAN Event code affected “downstream” EAS Participants. In particular, certain EAS Participants with EAS equipment that did not use a “strict time” setting failed to recognize that the EAN Event code, which included the date codes for November 9 (2011), did not correspond with the then-current date (October 24, 2014). Consequently, certain EAS Participants responded as though they had received an actual, real-time EAN message, which they then retransmitted to other EAS Participants, thereby setting off a multi-state cascade of false EAS alerts. After detecting that a problem had occurred, iHeart took steps both internal and external to its organization to prevent further retransmission of the EAN Event code.

20. **Severability.** The Parties agree that if any of the provisions of the Consent Decree shall be held unenforceable by any court of competent jurisdiction, such unenforceability shall not render unenforceable the entire Consent Decree, but rather the entire Consent Decree shall be construed as if not containing the particular unenforceable provision or provisions, and the rights and obligations of the Parties shall be construed and enforced accordingly.

21. **Invalidity.** In the event that this Consent Decree in its entirety is rendered invalid by any court of competent jurisdiction, it shall become null and void and may not be used in any manner in any legal proceeding.
